- 3. Read each question carefully and follow the instructions.**

SECTION A – (READING – 5marks)

Q1.. Read the following passage carefully.

(5)

1. There is something disarming about Maria Sharapova, something at odds with her ready smile and glamorous attire. And that something in her lifted her on Monday, 22 August 2005 to the world number one position in women’s tennis. All this happened in almost no time. Poised beyond her years, the Siberian born teenager took just four years as a professional to reach the pinnacle. However, the rapid ascent in a fiercely competitive world began nine years before with. That trip to Florida with her father Yuri launched her on the path to success and stardom. But it also required a heart-wrenching two-year separation a level of sacrifice few children would be prepared to endure. Little Maria had not yet celebrated her tenth birthday when she was packed off to train in the United States from her mother Yelena. The latter was compelled to stay back in Siberia because of visa restrictions. The nine-year-old girl had already learnt an important lesson in life-that tennis excellence would only come at a price.

2. “I used to be so lonely,” Maria Sharapova recalls. “I missed my mother terribly. My father was working as much as he could to keep my tennis-training going. So, he couldn’t see me either”. “Because I was so young, I used to go to bed at 8 p.m. The other tennis pupils would come in at 11 p.m. and wake me up and order me to tidy up the room and clean it.”

3. “Instead of letting that depress me, I became more quietly determined and mentally tough. I learnt how to take care of myself. I never thought of quitting because I knew what I wanted.

When you come from nothing and you have nothing, then it makes you very hungry and determined.... I would have put up with much more humiliation and insults than that to steadfastly pursue my dream.”

Answer the following questions:

1. How did Maria Sharapova reach to success?
2. State reasons of her staying back in Siberia.
3. Explain “I used to be so lonely.”
4. Give the similar meanings of the words:
 1. Charming (para1)
 2. Follow (para2)
